SUMMARY

To work as a Front End Developer (Software Engineer) in a company, where I can **learn**, **improve my knowledge** and **skills** and **contribute** to the growth of the company.

PROFESSIONAL SUMMARY

Frontend Developer with **6+ years of experience** in designing and building **responsive, high-performance web applications** using **React.js, Next.js, Redux, JavaScript, and TypeScript**. Skilled in **UI/UX optimization, reusable component design, and state management**. Proven track record of **mentoring developers, collaborating with cross-functional teams, and delivering scalable solutions** aligned with business goals in **Agile environments**.

KEY SKILLS

Frontend Development:
- React.js, Next.js, Redux, JavaScript (ES6+), TypeScript, HTML5, CSS3.

UI/UX & Styling:
- Responsive Web Design (RWD), Material UI, Bootstrap, Tailwind CSS, Cross-browser Compatibility, Pixel-perfect UI

State Management & Data Handling:
- Redux, Redux Thunk, Redux Saga, Context API, RESTful APIs, Axios, Fetch API

Tools & Version Control:
- Git, GitHub, NPM, Vite, Parcel, Webpack, VS Code, Chrome DevTools

Testing & Optimization:
- Unit Testing (Jest), React Testing Library, Performance Optimization, Code Splitting, Lazy Loading

Methodologies & Practices:
- Agile/Scrum, Code Reviews, Modular Component Design, Best Practices

Soft Skills:
- Team Leadership, Mentorship, Requirement Analysis, Problem Solving, Collaboration

EMPLOYMENT

Working as a Frontend Developer (Software Engineer) in Asics Technologies Pvt Ltd , Hyderabad from 2019 Dec to Till Date

Client: NationsBenefits India Pvt Ltd | Hyderabad
Software Engineer (Frontend Developer)
Project: Healthcare & Benefits Management Platform

Description:
A healthcare benefits platform designed to help users manage medical benefits, track services, and improve accessibility to healthcare resources.

Responsibilities & Achievements:
• Developed responsive UI features using React.js (Next.js) + TypeScript for healthcare workflows.

• Integrated REST APIs for managing user benefits, services, and healthcare data.
• Improved application performance through optimized state management using Redux.
• Collaborated with cross-functional teams to deliver scalable and user-friendly solutions.

Tech Stack: HTML5, CSS3, JavaScript, TypeScript, React.js, Next.js, Redux

Client: Fertis India Pvt Ltd (formerly Farmgate Technologies) | Hyderabad
Software Engineer (Frontend Developer)
Project: ENAM (Electronic National Agricultural Market) – Govt. of India Initiative

Description:
ENAM is a government initiative platform connecting farmers and traders nationwide to buy and sell agricultural products efficiently.

Responsibilities & Achievements:
• Developed React.js(Next.js) + TypeScript based frontend modules for the agricultural trading platform, improving user navigation and performance.
• Improved UI responsiveness by integrating Redux for state management and Material UI components, resulting in faster and cleaner workflows.
• Worked closely with backend teams to integrate RESTful APIs, ensuring smooth data flow and reducing rendering issues.
• Assisted junior developers in debugging and following coding best practices through code reviews.

Tech Stack: HTML5, CSS3, JavaScript, TypeScript, React.js, Next.js, Redux

Client: Vivid Minds Technologies Pvt Ltd (Quixy) | Hyderabad
Software Engineer (Frontend Developer)
Project: IDP (Intelligent Document Processing)

Description:
IDP is a document automation platform that extracts and processes data from unstructured documents like invoices, bills, and PDFs.

Responsibilities & Achievements:
• Built React.js + Redux interfaces for document automation features, improving efficiency in handling unstructured files.
• Developed reusable components with TypeScript, reducing repetitive code and improving maintainability.
• Collaborated with UX designers to refine front-end workflows, resulting in improved user experience.

Tech Stack: HTML5, CSS3, JavaScript, TypeScript, React.js, Redux

KEY ACHIEVEMENTS

- Trained and mentored **9 software trainees** in React.js best practices.
- Spearheaded UI optimizations that improved performance across 2 major projects.
- Recognized for translating complex client requirements into actionable technical solutions.

ACADEMIC

- **2019 - Electronics and Communication Engineering** from University College of Engineering (AUTONOMOUS), **JNTU-Kakinada.**
